

2020
where it all started

ABOUT ME.

I'm Atakan Deveci, a self-taught designer based in Austria.

My work combines graphic design, fashion and art direction with a focus on typography, illustration and photography.

I explore different visual approaches to develop distinctive concepts tailored to each project.

In 2022, I founded TEPHAYA, an independent fashion label for which I oversee the creative direction, including graphic design, visual campaigns, photography and product development.

This portfolio presents a selection of my creative work from 2020 to 2026.
